

## **Daring for dollars... Progressive Fast Food style**

Here's the deal: we can't spend a bazillion dollars on our Fast Food Progressive dinner. So, in teams of 3-4 people you will EARN money for each course. You will decide as a small group how to spend your earned money together for that course. It should make things fun. Trading money for dares done by another group FOR you is allowed. Banking money for a later course is allowed. Using some of your own money to "supplement" is allowed. What is not allowed is being so obnoxious that you get us kicked out of a restaurant, and I do not want you "pocketing" the money. It's meant to be used tonight.

You'll get it, I promise! (And, it will be fun). An adult leader must sign off that you have completed the "dare."

*[Leader's note: You need to budget \$13/kid for this event... If everyone completes every dare, this is the most they could earn. Seems like a lot, right? But, BELIEVE ME a teenager can go through \$13. in fast food without breaking a sweat!]*
